CEPro BRAND ANALYSIS

Breaking down the most used brands by the 2010 CE Pro 100.

Architectural Speakers

Traditional custom electronics manufacturing companies hold three of the top five positions.

A/V Receivers

Since 2008 Integra has grown its share of the CE Pro 100 by approximately 20 percent.

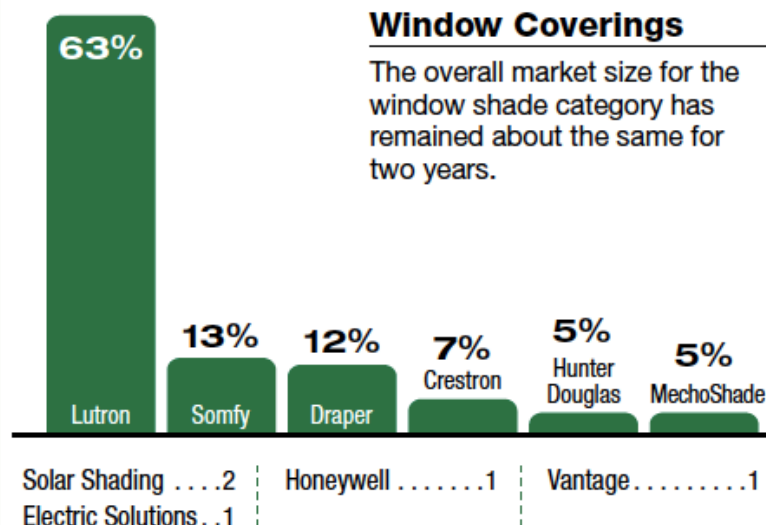

CEPro es una publicación especializada en instalaciones personalizadas de tecnología. Todos los años, realiza una encuesta entre las 100 firmas mas grandes de automatización de hogares para establecer las marcas mas usadas.

Technoimport utiliza esa información como guía para la selección de productos.

Presentamos el resumen de este año que ubica a los productos que representamos dentro de las marcas mas usadas.

Window Coverings

The overall market size for the window shade category has remained about the same for two years.

Lighting Control

Below perennial leader Lutron, Crestron made slight gains and Control4, Vantage and URC have made dramatic increases.

Remote Controls

The top four grew their market share within the CE Pro 100 when compared to the previous year.
